Iftesam Nabi

Front-End Developer

Hello, my name is Iftesam Nabi and I am currently a junior at Louisiana Tech University studying computer science. I have developed a strong passion for front-end development and am skilled in technologies such as React, GraphQL, and CSS Modules. I am highly motivated and actively seek out opportunities to learn and grow in my field. As a learner, I have been able to develop a solid foundation in front-end development and am always looking for ways to expand my knowledge and skills.

Web Performance Optimization

Work Experience

● **Front-End Developer**
2021-present

As a front-end developer, I have honed my skills in HTML, CSS, JavaScript, and React, allowing me to effectively design and implement high-quality solutions for various projects. My understanding of responsive design principles and expertise in mobile-first development have allowed me to create responsive and user-friendly interfaces. I have used these skills to create my portfolio website, showcasing my abilities and accomplishments in front-end development. In addition, my familiarity with version control systems such as Git and strong understanding of web performance optimization techniques have allowed me to efficiently manage and optimize the performance of my projects. These skills have enabled me to excel in my role as a front-end developer.
